

## **COVID Protocols Effective 6.1.2021**

1. We will return to fully open status in July. Virtual class options will be limited. Please encourage all students to attend in person.
2. Masks will no longer be required. We recommend that they be worn. When we return to school, we will seek local guidance on the status of masks concerning whether they are still recommended and make adjustments, if needed. We will continue to provide masks for those who chose to wear them.
  - a. Caution: We will not shame anyone for wearing or not wearing a mask.
3. Health screenings are no longer required to be completed.
4. We will still provide disinfectant for classrooms and hand sanitizer throughout the building.
5. Students may sit where they want in open areas/cafes.
6. Classrooms may be arranged in a way where the teacher is most comfortable in a way that best serves all students on roster.
7. Students no longer need to follow directional signs within the building, they may move about the building freely.
8. If quarantining or ill with COVID, sick time or PTO time will need to be taken.
9. Working from home is no longer an option.

Please note: The COVID protocols listed above may be changed at any point to comply with local or state restrictions that are implemented.
